LIVING COCONUT KEFIR MYLK

Kefir is a thick fermented milk drink, similar to a drinking yoghurt. It has a distinctive tart, yet refreshing taste, with a slight effervescence. Compared to other probiotic foods such as yoghurt, kefir contains a broader range of beneficial bacteria along with yeasts, which work together to give exceptional health benefits. Produced by kefir grains, a symbiotic community of bacteria and yeasts, which feed on the natural sugars to ferment the mylk, once the kefir is ready the grains are removed. Living Coconut Kefir has loads of health benefits, which include: healing the digestive system and liver, creating a strong immune system, enhancing hydration, recolonising and alkalising your gut, and it also possesses anti-tumour and anti-bacterial properties.

NATURAL COCONUT KEFIR 9*500ML

The original & the best, all natural cultured coconut kefir mylk. Made with organic coconut cream, spring water & living cultures.

CACAO HAZELNUT COCONUT KEFIR 9*500ML

A slightly sour & addictive kefir mylk, with organic coconut cream, spring water, Dutch cacao, hazelnut, dark chocolate & living cultures.

RASPBERRY BEETROOT KEFIR 9*500ML

A rich, sour & delicious coconut kefir. With organic coconut cream, spring water, raspberry, strawberry, organic beets & living cultures.
